

GPC PARKLAND GUIDELINES

Gladstone Ports Corporation (GPC) prides itself on the provision of community parklands and facilities for the Gladstone region, including the popular Gladstone Marina Parklands, Spinnaker Park and the East Shores Precinct. To help ensure the longevity and vision of our recreational parklands, the following are applicable:

Glass

Glass is prohibited in all areas of our parklands. Please view the GPC Parkland maps regarding alcohol consumption.

Rubbish

Waste receptacles are provided throughout the parklands for general users. Please refer to the Queensland Government website regarding any potential use of balloons. Please appropriately dispose of any temporary decorations.

Dogs

Dogs are permitted within our parklands except in the East Shores water play park. Dogs must be on a leash at all times and owners are to clean up after their pet. Dog waste bags are provided.

Infrastructure

Pegs and star pickets are discouraged in all areas of our parklands due to the complex underground irrigation systems.

Bikes, skateboards and scooters

Bikes, skateboards and scooters are not permitted within the East Shores water play park and/or any of the playground areas. Please use existing parkland pathways and be mindful of other users at all times.

Whilst enjoying the facilities please be considerate of others and follow the park rules as signed. Please note that the East Shores Precinct is under 24hr CCTV surveillance.

Gladstone Ports Corporation appreciate your cooperation with the above guidelines and encourage you to contact 1800 243 GPC (472) should you require further information.
